

ANTI-INSECT NETTING

NETTING 10/16

We recommend the use of this net mesh for the protection of crops under greenhouses. It protects the crops against the entry of white fly, and other insects in the crops, bringing diseases that can cause serious losses in the crops.

- Standard Lengths: 100, 250, 500, 1000.
- Standard Widths: 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5.
- Other measurements under client's request

Technical Characteristics

- Raw Material: PTAD
- Colour: Crystal/Black
- White Thread: 48.5%
- Weight: 137.9 gr./m²
